MAJO

MAJO

Majo is a delightful office desk with a smooth motorized lifting system that makes work easier and more enjoyable. The unique structure helps all people find a wonderful working journey here with Majo.

Balance free and health
Redefine the office working experience

The MAJO system is dedicated to creating a free, healthy working experience. The lifting range of 750-1270 mm can cover 99% of office workers' needs and avoid damage from long time sitting during daily work.

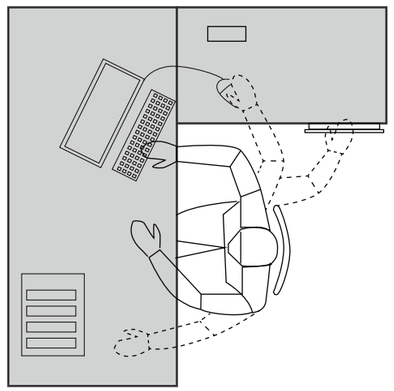
Redefining thinking pattern

It can be easily reconfigured to meet your business needs, transforming from a standing workstation to a long table.

Adjacent employees can sit or stand without interrupting other’ s working cadence.

Supervisor system

The flexible and versatile system configuration provides an attractive, practical, and creative working environment for the MAJO supervisor system, which can easily adapt to evolving work requirements and technological changes.



Business Meeting

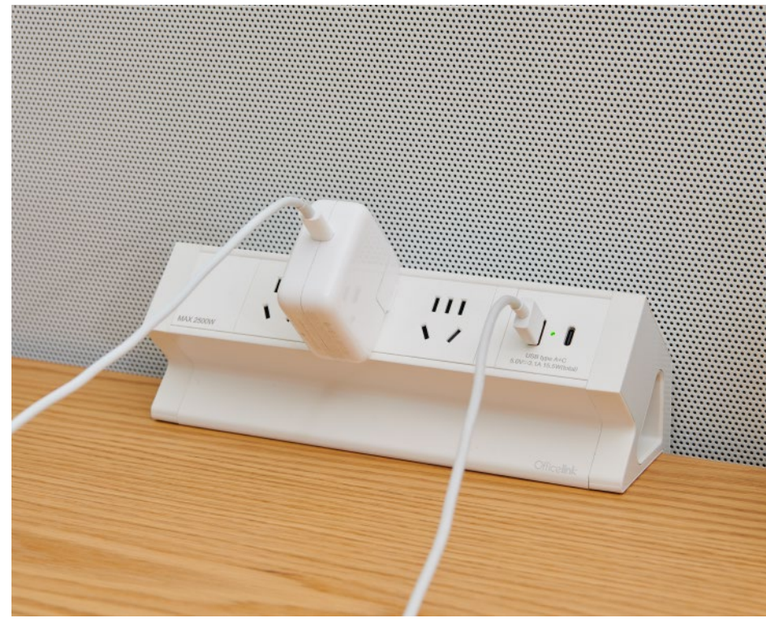
The excellent structure design of ARC provides strong stability and adaptability, alongside with hidden cable management and multi-functional electric-power rail, ensuring the clean and tidy of the desktop. Various sizes are available for all types of meeting rooms.

Cable management

The MAJO's original cable management system makes the office environment more concise and fashionable.

Smooth height adjustment to quickly switch working status

MAJO HAT can switch work status at will according to different height requirements, reasonably balance sitting and standing time, and reduce the health threats of sitting for a long time in the office.



The integrated power system provides easy electricity access.
